## Certificate course / Add-on course in Economics

A certificate course (add-on course) is offered on regular basis in collaboration with "Bharuch District Co-operative Union" for the final year students of B.A. with Economics since the inception of the department & Economics. The certificate course duration is 30 hours (7 days) maximum and also includes a compulsory visit to local Co-operative Unions namely Dudh Dhara Dairy Co-operative, APMC, District Co-operative Bank etc.

This program makes the students aware about the Co-operative Sectors, which are the basic building blocks of the Indian Economy. This particularly benefits the Girl students to become financially independent and can even become self-employed by establishing their own Cottage Industry or even Small Scale Industry. Thus we can say that this Add-on course shapes the students' Career and makes them empowered for employability.
