Feedback for Faculty During the Period 2022-23

To improve student's performance, it is essential that they should understand the concepts related to the subject clearly. This can be achieved through effective teaching and by establishing good relationship between students and teachers so that they feel free to ask their difficulties. Feedback is an essential part of effective learning. It is important to know student's expectations from teachers as well as the performance of the teacher from student's point of view. Considering all aspects, a feedback form was prepared and at the end of the year, the responses from the students were collected by each department.

Process (Figure: 1)

- Feedback was collected from the students during the academic sessions 2022-23.
- Students were asked to fill up the feedback forms and rate the performance of their teacher on ten parameters (mentioned in the feedback form), on a four-point scale and give their opinion by putting a tick mark in front of the box provided against each parameter.
- A copy of the feedback form is as given in the Fig:2
- The parameter for calculation is given as: (1) Excellent (2) Good (3) Satisfactory (4) Poor
- Pie chart for regular teachers of the institute is prepared for both PG and UG Classes (Fig:3).
- In feedback analysis, if there is any component with >10% in poor, Principal will take corrective measures.
- As shown in pie chart 82 % faculty received Excellent parameter, 11 % faculty received good parameter, 7 % faculty received Satisfactory parameter and 0 % faculty received Poor parameter.
