BEST PRACTICE- I

Title of the Practice:

Increasing employability of students by honing soft skills

Objectives of the Practice:

To make the students more employable by improving their interpersonal and soft skills

The Context:

In the present times, being qualified is not the only criterion which can lead a student towards a fruitful employment. The employers look for other aspects of personality besides the knowledge and qualification of the employee. In this context it is necessary that the student be proficient over language especially English, proficient in computer skills as well as have certain qualifications give him/her an edge over others.

The Practice:

The following practices have been adopted to fulfil these goals for our students:

1. Regular guest lectures, debates and group discussion on various issues pertaining to society like women empowerment, gender sensitization, social inclusion, ethics, communal harmony, corruption etc.
2. Regular and mandatory participation in class presentations, public speaking and cultural activities to inculcate confidence.
3. Regular exposure to industry, institutions and establishments relevant to the subject in order to improve the overall thought process of the students.
4. Regular monitoring of problems of students of reserve categories and minorities by the UGC SC/ST Standing Committee.
5. Equal opportunity for girls to participate in all college events.
6. Regular organization of various seminars, cultural and sports events for the exposure of the students.
7. Regular conduct of a Placement and Counselling cell to help students in securing skills for employment.

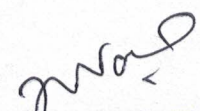

Evidence of Success:

1. Regular placements of our students in various organisations.
2. Increase in the number of students participating in various cultural and sports activities.

Problems Encountered and Resources Required:

With the help of staff and students the problems seemed very small and insignificant.
